2-YEARS OF GROWTH

Hunt Street Stream

Henry Kortekaas and Associates were the Landscape Architects responsible for the bioengineering of the Bowmanville Creek at the rear of the Hunt Street Subdivision. The Bowmanville Creek regularly created a cut slope at the rear of the proposed subdivision. The Engineer had proposed a traditional Armor Stone solution and the Conservation Authority requested a bioengineering solution which Henry Kortekaas and Associates designed, implemented and supervised to a successful conclusion.

BEFORE

AFTER

Whipper Watson Park - Keswick, ON

Whipper Billy Watson was a world-class wrestler who called Keswick, Ontario home. He was also a very strong advocate for active lifestyles for children and for full accessibility so all kids could participate. The renovation Whipper Watson Park is designed with his guiding principles in mind. The park includes a fully-accessible playground, splashpad with recycled water, lit tennis court, beach volleyball court and a multi-use asphalt skills court along with a 3 km walking trail.
