Huntington Village - Courtyce, ON

Huntington Village is a Medium Density Residential Block within the Larger Huntington Phase III development in south Courtyce. It features 3 parkettes and boulevard planting to meet Site Plan Approval in the Municipality of Clarington. These 3D models were produced by our office including the 3D townhouses that are accurate to the architectural plans. These images were used for the Urban Design Report, that we produced, and can be brought to a higher realism for sales images.

Homeland Development Group, Uxbridge

Our firm worked with the client and the Engineer to create the Draft Plan of Condominium for this new community. Special attention & care was taken to respect a creek setback and the setback for a rare Butternut tree (*Juglans cinerea*). We were also retained to provide rendered promotional material for the sales brochure and signage.
